Sri Matriniketan Ashram Report-2023

“This (*descent of Divine Force*) has repeatedly been my experience lately, with a vision and a conviction, the conviction of an experience: the two vibrations (*Truth and Falsehood*) are like this (*concomitant gesture indicating a superimposition and infiltration*), all the time – all the time, all the time...May be the sense of wonder comes when the quantity that has infiltrated is large enough to be perceptible. But I have an impression – a very acute impression – that this phenomenon is going on all the time, all the time, everywhere, in a minuscule, infinitesimal way (*gesture of a twinkling infiltration*), and that in certain circumstances or conditions that are visible (visible to this vision: it's a sort of luminous swelling – I can't explain), then, the mass of infiltration is sufficient to give the impression of a miracle. But otherwise, it's something going on all the time, all the time, all the time, continuously, in the world (*same twinkling gesture*), like an infinitesimal amount of Falsehood replaced by Light ... Falsehood replaced by Light ...”²

The Mother

This Report explores *the Mother's* two above mentioned Spiritual experiences of Subconscious transformation. This change seems to be a departure from the objective world and our preoccupation in following faithfully the two doctrines of integral Yoga that of (1) ‘Deserting the boundary of things achieved’³ and (2) ‘To the physical mind (*tamasic* mind) only the words and facts and acts of a man matter; to the inner mind it is the spiritual happenings in him that matter.’⁴

The objective of integral Yoga is to establish the flashes and short-lived revelation of the Divine Presence, Divine Consciousness, Divine Wisdom, Divine Peace, Divine Love, *Ananda*, and Beauty through Subconscious transformation. The Divine Will is advancing step by step through continuous infiltration of Divine Force to realise this established end. If a conscious individual knows how to move the Consciousness which may be either Divine Will or Knowledge or Love, he can experience the Divine descent freely in the jail, forest, crowd, war field, mart, work field, ‘wayside act’ and common day-today life without interruption. Finally, any occasion and not limiting oneself to any specialised self-discipline can be utilised as means of movement of this Divine Consciousness.

An ideal *Karma Yogi* is he who has attained perfection in equality and is able to see Divine in all and Divine working in all events; he would avoid the splendid haste on fate’s slow road and develop unshakable patience through a marriage with eternity that can divinise Time. He lives in the Spiritual sheath, holding together the subtle and gross body of the Divine work. An integral *Karma Yogi* throws himself upon the world in a loving wrestle to compel change and transfiguration of material and objective world.

The ideal *Jnana Yogi*, not only sees God and embraces Him but becomes that Reality. He will develop the four-fold faculties of Divine touch, hearing, vision and thought through ascension of Consciousness to the intuitive plane and approaches the border of Cosmic mind.

An ideal *Bhakti Yogi* realises the Divine Love and Bliss of existence in the two centres that of the lotus in the heart and the thousand-petalled lotus above the head and the dwelling of the Soul with or in the Divine, *samipya, salokya*. When the lotus in the heart breaks open, he feels the whole being is irradiated with Love, Delight and Peace and brings fulfilment in thought, feeling and action and when the lotus above the head opens, the whole mind becomes sea of Divine Joy, Power and Light and this can flow downward and outward to purify, transform and perfect the lower world and the surrounding world.

In *The Life Divine*, Sri Aurobindo has identified that ‘the ascetic spirit is an **indispensable** element in human perfection’⁷ and even if its separative identity of *Jivatma*’s union with *Paramtama* through rigorous Self-control, is not universalised, it is still an intermediate long passage through which Psychic being and Spiritual being are universalised and opens the gate of consecrated living.

Sri Aurobindo pointed out⁸ that consecrated Spirituality of Divine Centres through religious movements in the past did not succeed due to the want of complete Spiritual experience and evolved collectivity. This gives birth to a vision ‘Beyond the Divine Centre’ where the change will be neither dependent on the man of Spiritual attainment nor on the truthfulness and honesty of collectivity but on the direct intervention of the Time-Spirit that is active on earth’s atmosphere and its crushing circumstances.⁹

The vision of *Sri Matriniketan Ashram* is dependent on discovery of a Priestless-shrine¹¹ or Virgins’ Fortress¹² within where the wide range play¹⁰ of *Paramatma Satyavan* and *Paraprakriti Savitri* is established in the Psychic heart centre and is extended towards multiple planes of Consciousness giving a concrete shape of a Virgins’ Fortress without.

This too has been attempted before without success; it was the original founding idea of more than one religion: but the human ego and vital nature were too strong for a religious idea working on the mind and by the mind to overcome its resistance. It is only the full emergence of the soul, the full descent of the native light and power of the Spirit and the consequent replacement or transformation and uplifting of our insufficient mental and vital nature by a spiritual and supramental supernature that can effect this evolutionary miracle.” CWSA-22/The Life Divine-1096,

That was the idea. Because when I was in France, I was always asking myself, "How can people have the time to find themselves? How can they even have the time to understand the way to free themselves?" So I thought: a place where material needs are sufficiently satisfied, so that if you truly want to free yourself, you can do so. And it was on this idea that the Ashram was founded, not on any other: a place where people’s means of existence would be sufficient to give them the time to think of the True Thing... (*Mother smiles*) Human nature is such that laziness has taken the place of aspiration (not for everyone, but still fairly generally), and license or libertinism has taken the place of freedom. Which would tend to prove that the human species must go through a period of brutal handling before it can be ready to get away more sincerely from the slavery to activity.” The Mother/September 16, 1964,

Rapport de l'Ashram de Sri Matríniketan - 2023

«Cette (descente de Force Divine) a été à plusieurs reprises mon expérience ces derniers temps, avec une vision et une conviction, la conviction d'une expérience : les deux vibrations (Vérité et Mensonge) sont ainsi (geste concomitant indiquant une superposition et une infiltration), toutes le temps – tout le temps, tout le temps... Peut-être que l'émerveillement vient quand la quantité qui s'est infiltrée est assez grande pour être perceptible. Mais j'ai l'impression - une impression très aiguë - que ce phénomène se produit tout le temps, tout le temps, partout, de façon minuscule, infinitésimale (geste d'une infiltration scintillante), et que dans certaines circonstances ou conditions qui sont visible (visible à cette vision : c'est une sorte de renflement lumineux – je ne peux pas l'expliquer), alors, la masse d'infiltration est suffisante pour donner l'impression d'un miracle. Mais sinon, c'est quelque chose qui se passe tout le temps, tout le temps, tout le temps, continuellement, dans le monde (même geste scintillant), comme une quantité infinitésimale de Mensonge remplacé par la Lumière... Le Mensonge remplacé par la Lumière... »

La Mère

Ce rapport explore les deux expériences spirituelles ci-dessus de la mère de la transformation subconsciente. Ce changement semble s'éloigner du monde objectif et de notre préoccupation de suivre fidèlement les deux doctrines du Yoga intégral, celle de (1) « Abandonner la frontière des choses accomplies » et (2) « Au mental physique (mental tamasic) seulement les paroles, les faits et les actes d'un homme compétent; pour l'esprit intérieur, ce sont les événements spirituels en lui qui comptent. »

L'objectif du yoga intégral est d'établir les éclairs et la révélation éphémère de la présence divine, de la conscience divine, de la sagesse divine, de la paix divine, de l'amour divin, de l'Ananda et de la beauté par la transformation subconsciente. La Volonté Divine avance pas à pas à travers l'infiltration continue de la Force Divine pour réaliser cette fin établie. Si un individu conscient sait comment déplacer la Conscience qui peut être soit la Volonté Divine, soit la Connaissance, soit l'Amour, il peut expérimenter librement Descente divine de la Force dans la Prison, la forêt, la foule, le champ de bataille, le marché, le champ de travail, «l'acte au bord de la route» et le terrain communal jour aujourd'hui la vie sans interruption. Enfin, toute occasion et ne se limitant à aucune autodiscipline spécialisée peut être utilisée comme moyen de mouvement de cette Conscience Divine.

Un *Karma Yogi* idéal est celui qui a atteint la perfection dans l'égalité et qui est capable de voir le Divin en tout et le Divin agissant dans tous les événements ; il éviterait la splendide hâte sur la lente route du destin et développerait une patience inébranlable par un mariage avec l'éternité qui peut diviniser le Temps. Il vit dans l'enveloppe Spirituelle, tenant ensemble le corps subtil et grossier de l'œuvre Divine. Un *Karma Yogi* intégral se jette sur le monde dans une lutte amoureuse pour forcer le changement et la transfiguration du monde matériel et objectif.

Le *Jnana Yogi* idéal, non seulement voit Dieu et L'embrasse, mais devient cette Réalité. Il développera les facultés quadruples du toucher divin, de l'ouïe, de la vision et de la pensée grâce à l'ascension de la Conscience vers le plan intuitif et s'approche de la frontière de l'esprit cosmique.

Un *Bhakti Yogi* idéal réalise l'Amour Divin et la Félicité de l'existence dans deux centres, celui du lotus dans le cœur et le lotus aux mille pétales au-dessus de la tête et la demeure de l'Âme avec ou dans le Divin, samipya, salokya. Lorsque le lotus dans le cœur s'ouvre, il sent que tout l'être est irradié d'amour, de délice et de paix et apporte l'accomplissement dans la pensée, le sentiment et l'action et lorsque le lotus au-dessus de la tête s'ouvre, tout l'esprit devient une mer de joie divine, de puissance, et la Lumière et cela peut couler vers le bas et vers l'extérieur pour purifier, transformer et perfectionner le monde inférieur et le monde environnant.

Dans *The Life Divine*, Sri Aurobindo a identifié que "l'esprit ascétique est un élément indispensable à la perfection humaine" et même son identité séparative de l'union de *Jivatma* (Âme) avec *Paramtama* (Divin) à travers une maîtrise de soi rigoureuse, n'est pas universalisée, mais c'est toujours un long passage intermédiaire à travers lequel l'être Psychique et l'être Spirituel s'universalisent et ouvre la porte de la vie consacrée.

Sri Aurobindo a souligné que la Spiritualité consacrée des Centres Divins à travers les mouvements religieux dans le passé n'a pas réussi en raison du manque d'expérience Spirituelle complète et d'une collectivité évoluée. Cela donne naissance à une vision "Au-delà du Centre Divin" où le changement ne dépendra ni de l'homme d'accomplissement Spirituel ni de la véracité et de l'honnêteté de la collectivité mais de l'intervention directe de l'Esprit du Temps qui est actif sur l'atmosphère terrestre et ses circonstances accablantes.

La vision de Sri Matriniketan Ashram dépend de la découverte d'un sanctuaire sans prêtre ou d'une forteresse des vierges au sein de laquelle le jeu à large éventail de Paramatma Satyavan et Paraprakriti Savitri est établi dans le centre du cœur psychique et s'étend vers de multiples plans de Conscience donnant une forme concrète d'une Forteresse des Vierges sans.

A Tribute to Sri Champaklal

The Mother's Manifestation book is offered at the Lotus Feet of *The Mother* and *Sri Aurobindo* on occasion of *Sri Champaklal's centenary* of joining *Sri Aurobindo Ashram* in 1923.

Now the book is available in Amazon Kindle book. Its free promotion will be available from 01.02.2023 to 03.02.2023.

The present book (a partial account of Her endless manifestation) is a rigorous effort to live the Soul saving truth in three stages that of (1) ‘the most thorough and acute surface scrutiny and manipulation’ cannot control, deliver and perfect life; (2) above our human mind there exists Superconscious energies; if they are called down in their fullness to the subliminal, surface and Subconscious planes then that **‘could altogether alter the whole make and economy of life in the material universe;**’ and lastly (3) the real and effective way of helping men is to raise their consciousness towards the Divine’s infinite Perfection, eternal Harmony and the unity of many-sided Divine manifestation, not by mechanised way of moral law, external rule, spread of mental idea but ‘only through a Spiritual Influence,... can it be extended to others.’

Sri Champaklal was both a true child and dearest disciple of the Divine. His unique state of Consciousness was same and equal with the status that of the Gita’s terminology of exceedingly dear *Bhakta* who obeys all the Self-disciplines, *dharma*, with full of faith, immaculate and high-bred maiden like *Savitri*, the *Sannyasin* of later *Vedantic* era like *Adi Shankara*, the comprehensive Spirituality of the Seers, *Kavis*, of ancient *Vedanta* like *Yajnavalkya*, the *karma Yogi* of the status of *Janaka*, the king of *Mithila*, *Ashwapati*, the king of *Madra*, the *Hatha Yogi* of the status of *Patanjali*. He was a descended emanation very close to *Lord Sri Hanuman* by virtue of the path of single devotion, *ekabhaktih*, he offered to the One, his Master. *The Mother* certified him as ‘one of the hundred’ perfect instruments of the Divine.

This note is an occasion of expressing our intense gratitude to Sri Champaklal and the other Spiritual predecessors and elders who have extended their Material and Spiritual help and we promise to live the Truth that has manifested through this book in order to pay the debt that has bound us through successive births.

The Mother's Manifestation

(A Brief Introduction)

The editor of this book (S. A. Maa Krishna) believes that apart from *the Vedas, the Upanishadas and the Gita*, Sri Aurobindo's principal Teaching, *The Synthesis of Yoga* is one of the best standards of the race. Its Teaching is so vast, catholic and impersonal that all can accept but only a few aspirant Souls can live its message which is the reconciliation of perfect Spirit with imperfect Matter.

The Mother's Manifestation' book is a utilitarian interpretation of the book *The Synthesis of Yoga*. It insists on a *Sadhaka* becoming accountable for his *sadhana* to his own Self, to the World and to the Divine in three stages. Firstly, he will trace a path of his own *sadhana* by constantly renewing, reshaping, reliving and restating the best written standard available to the race and by noting the full account of his human imperfection and Self-perfection. Secondly, during the concentration, contemplation and meditation of these formative truths extending over decades, he receives new overhead Divine Wisdom, Divine Will and Divine Love and the unending instrumental exercise of a *Sadhaka* is to learn this lesson of the Infinite which gets precedence over all other appetite and interest. Lastly, he will be a Divine Centre of the world by receiving the Divine energies, of holding them in the purified and transformed human vessel, of transmitting them to the surrounding world and of fulfilling the deficiencies of men. His Soul strength is weighed and augmented from his capacity for ceaseless action, ceaseless concentration to hold and transmit ceaseless Divine Love, Delight and Beauty and finally the capacity to remember the Divine uninterruptedly through ceaseless *Japa*.

The perfect utilisation of the opportunities of integral Yoga is identified as to use the time and space exclusively for the ascent and descent of Consciousness and by this vertical movement through the assistance of the triple Yoga of *Karma, Jnana* and *Bhakti*, one arrives at the birth of experiencing Timeless Eternity and Spaceless Infinity and their manifestation through new birth of time and space.

The Mother's Consciousness is that which rests on the One and acts in all existence and this consciousness manifests on earth by penetrating into finite things, phenomena and forms to produce infinite harmony, freedom and perfection.
